The MCCU Home Equity Line of Credit (HELOC) is an adjustable rate loan based on current Prime Rate as published in the Money Rates table of the Wall Street Journal (the Index) plus your Margin. The introductory discounted annual percentage rate (APR) is fixed for the first 6 months (180 days) after which the rate converts to the then current Prime Rate as published in the Money Rates table of the Wall Street Journal (the Index) plus your Margin and is then variable and subject to change. The current variable rate starts at 8.74% APR and is accurate as of 10/01/2024 subject to change anytime. The quoted rates are based on 720 or higher FICO Credit Score. The annual percentage rate cannot increase by more than six percentage points (6%) above the initial rate and cannot decrease by more than one half of one percentage point (.50) below the initial rate. The HELOC term is 25 years (10-year draw period). After the draw period ends, the outstanding balance must be paid over a 15-year repayment period. Minimum credit limit is \$30,000. Property Insurance and a lien are required on the subject property. Fees range from \$1,000 to \$2,500, based on amount borrowed. Fees are waived with minimum \$30,000 draw and if HELOC remains open for a minimum of 36 months, otherwise it will be required to pay fees at time of loan payoff. Consult your tax advisor regarding deductibility of interest. Rates, terms, and fees are subject to change without notice. MCCU membership required.
